

Manish

React.js Developer | Ethical Hacking & Cybersecurity Trainee

A CSE undergraduate who enjoys building clean, functional web applications and is developing a strong foundation in ethical hacking and vulnerability assessment.

SUMMARY

Final-year Computer Science & Engineering student with hands-on training across cybersecurity fundamentals, front-end web development, and digital content production. Completed structured coursework in ethical hacking and vulnerability assessment, covering network security, the OWASP Top 10, client-side attacks, social engineering, and mobile/Wi-Fi security. Builds responsive, component-based web applications with React.js, applying modern state-management and API-integration practices. Complements technical skills with practical experience in video editing and visual content creation. Eager to grow into an entry-level cybersecurity, application security, or web development role.

EXPERIENCE

ReactJS Developer at **Freelance**

Developed responsive, dynamic web applications using React.js with a component-based architecture. Implemented state management with React Hooks and the Context API, integrated RESTful APIs for real-time data rendering, and applied modern front-end practices including JSX, reusable components, routing, and CSS-in-JS.

Video Editor / Content Creator at **Freelance**

Produced engaging videos for social media, marketing campaigns, and personal branding, using Adobe Premiere Pro, After Effects, and CapCut for cutting, color grading, motion graphics, and audio synchronization. Analyzed audience trends to optimize content for engagement.

Ethical Hacker at **Techcadd Company**

6-months completed a hands-on ethical hacking internship focused on authorized penetration-testing methodology used to identify and responsibly report system vulnerabilities, and to recommend remediation strategies.

CERTIFICATES

1. Ethical Hacking — Techcadd Trainings
2. Web Development in React.js — GTB Computer Education

SKILLS

1. Web Development

Details: HTML, CSS, JavaScript, React.js (Hooks, Context API), RESTful API Integration, JSX, Component-Based Architecture, Responsive Design, CSS-in-JS

2. Cybersecurity Fundamentals

Details: Ethical Hacking principles, VAPT concepts, OWASP Top 10, Footprinting & Reconnaissance, Client-Side Attacks, Social Engineering

awareness, Malware awareness, Mobile & Wi-Fi Security fundamentals, Steganography & Password Security, Penetration Testing Reporting

3. Networking

Details: Basics of Computer Networking, Network Security Fundamentals

4. Content & Media Production

Details: Video Editing (Adobe Premiere Pro, After Effects, CapCut), Image Editing, Photography, Motion Graphics, Audio Synchronization

EDUCATION

B.Tech, Computer Science & Engineering at **CT Group of Institutions**

2022 – 2026

Senior Secondary (Class XII), Science at **PSEB — Jalandhar Government School, Bhargo Nagar Boys, Jalandhar**

2021 | Percentage: 73.00%
